LPKF Presents a New Stencil Laser at APEX *Stencil Laser G 6060*

Tualatin, OR, April 2008 – LPKF Laser & Electronics announces the world premier of the new SL G 6060, at the upcoming APEX 2008 exhibition, scheduled for April 1-3, in Las Vegas, NV.

The new **Stencil Laser G 6060** is a fully enclosed laser cutting system for the production of SMT stencils. This system is the latest addition to the LPKF G-Series stencil laser systems, the new gantry architecture contributes to the small footprint and light weight construction; making the system ideal for any environment. The SL G 6060 allows for high performance speeds up to 17,400 apertures per hour; three times faster than legacy stencil cutting systems.

The **Stencil Laser G 6060** automatically adjusts to fit any stencil frame size up to 29" x 37.4" (740 x 950 mm) and has maximum cutting area of 24" x 24" (600 x 600 mm). A new loading routine shortens unproductive downtime time when switching between loose foils and framed stencils. Engineered with a Class I laser safety rating, the **Stencil Laser G 6060** can cut with either compressed air or oxygen, and features a touch screen with easy-to-learn multi-level user interface. The **Stencil Laser G 6060** is easy to manage and maintain and LPKF's service staff can remotely service the system from anywhere in the world via the internet.

About LPKF

LPKF Laser & Electronics is an ISO-9001 certified equipment manufacturer of equipment for the electronics industries; the worldwide headquarters is located in Garbsen, Germany with the North American headquarters located in Tualatin, Oregon.
