

**LIVE DEMONSTRATION ~ November 5<sup>th</sup>**

**The LPKF ProtoMat<sup>®</sup> S-Series**

LPKF Laser & Electronics, the worldwide leading manufacturer of in-house PCB prototyping equipment, will be in your neighborhood to demo the ProtoMat<sup>®</sup> S62 prototyping system. The S62 sets the standard of in-house prototyping systems featuring unmatched precision, flexibility, and easy-to-use software. LPKF is the ultimate source for electronic R&D tools; from design to production. We have always set the standard for in-house PCB prototyping, and we look forward to sharing our 30+ years of experience by helping you save time and money on your next R&D project.

**LIVE Demonstration in a Neighborhood Near You!**

A Live Demonstration and Questions & Answers for new and existing customers will be taking place at each of the locations listed below.

**ProtoMat<sup>®</sup> S62 overview:**

The ProtoMat<sup>®</sup> S62 system includes an automatic tool changer, acoustic cabinet, training CD, and a 62k RPM spindle motor as standard features. It also has an optional vacuum table, fiducial positioning camera, and ProConduct<sup>®</sup> through-hole plating system.

Seattle, WA	<b>Lake Washington Technical College</b> 11605 132nd Avenue NE Kirkland, WA 98034-8506 (425) 739-8100 <i>* Demonstration to take place in Room E155</i>	Thursday, November 5 <sup>th</sup>	9:30 am or 1:00 pm
