

LIVE DEMONSTRATION ~ Week of July 26th

The LPKF ProtoMat[®] S-Series

LPKF Laser & Electronics, the worldwide leading manufacturer of in-house PCB prototyping equipment, will be in a neighborhood near you to demo the ProtoMat[®] S62 PCB prototyping system. The S62 sets the standard of in-house prototyping systems featuring unmatched precision, flexibility, and easy-to-use software. LPKF is the ultimate source for electronic R&D tools; from design to production. We have always set the standard for in-house PCB prototyping, and we look forward to sharing our 30+ years of experience by helping you save time and money on your next R&D project.

LIVE Demonstration in a Neighborhood Near You!

A Live Demonstration as well as a Questions & Answers session for new and existing customers will be taking place at the potential locations listed below.

St. Paul/Minneapolis, MN

and

Chicago, IL

- *Final dates and locations are dependent registration feedback* •

ProtoMat[®] S62 overview:

The ProtoMat[®] S62 system includes an automatic tool changer, acoustic cabinet, training CD, and a 62k RPM spindle motor as standard features. It also has an optional vacuum table, fiducial positioning camera, and ProConduct[®] through-hole plating system.

We hope you are able to attend one of the live demonstrations in your area.
